Case Study 8: Online Food Ordering Website

Overview

Online food ordering has become one of the most widely used web services. This case study covers the design of a front-end website for a restaurant called **Foodie**, which lets customers browse the menu, view prices and offers, read reviews and place orders from home. The website is built as a static, responsive web page using HTML and CSS, and shows how a real-world food delivery interface can be structured clearly and attractively.

Objective

To design a simple, user-friendly and visually appealing restaurant website that presents the food menu with images, descriptions and prices, and makes it easy for a customer to choose a dish and click *Order Now*.

Key Features of the Website

- **Header and navigation bar:** Restaurant name with tagline "Fresh Food Delivered to Your Doorstep!" and links to Home, Menu, Offers, Reviews and Contact.
- **Welcome section:** Short introduction about affordable prices, good taste and fast delivery.
- **Special Offers:** Highlighted dashed box showing 20% OFF on the first order and free delivery on orders above Rs. 499.
- **Food Menu:** Six dish cards (Cheese Pizza, Veg Burger, Sushi, Margherita Pizza, Special Pizza and Grilled Special), each with an image, category, description, price (Rs. 99 to Rs. 299) and an Order Now button.
- **About Our Restaurant:** Opening hours (10:00 AM - 10:00 PM) and delivery information.
- **Customer Reviews:** Three review cards with names, star ratings and feedback.
- **Footer:** Contact details including email, phone, address and copyright.

Technologies Used

HTML5 for page structure; CSS3 for colours, card layout, shadows, buttons and responsive design; images for the dishes.

Case Study 26: College Fest Management Website

Overview

College fests involve many events, schedules, coordinators and participant registrations, which are difficult to manage on paper. This case study presents a website for an annual college fest named **FESTOPIA 2026**, held on 15 - 16 December 2026 at ABC Engineering College, Vijayawada. The site gives students all the information about the fest in one place and allows them to register for events online.

Objective

To develop an informative and well-organised website that displays the fest events, schedule, coordinators and rules, and provides a registration form through which students can enrol for technical, cultural and workshop events.

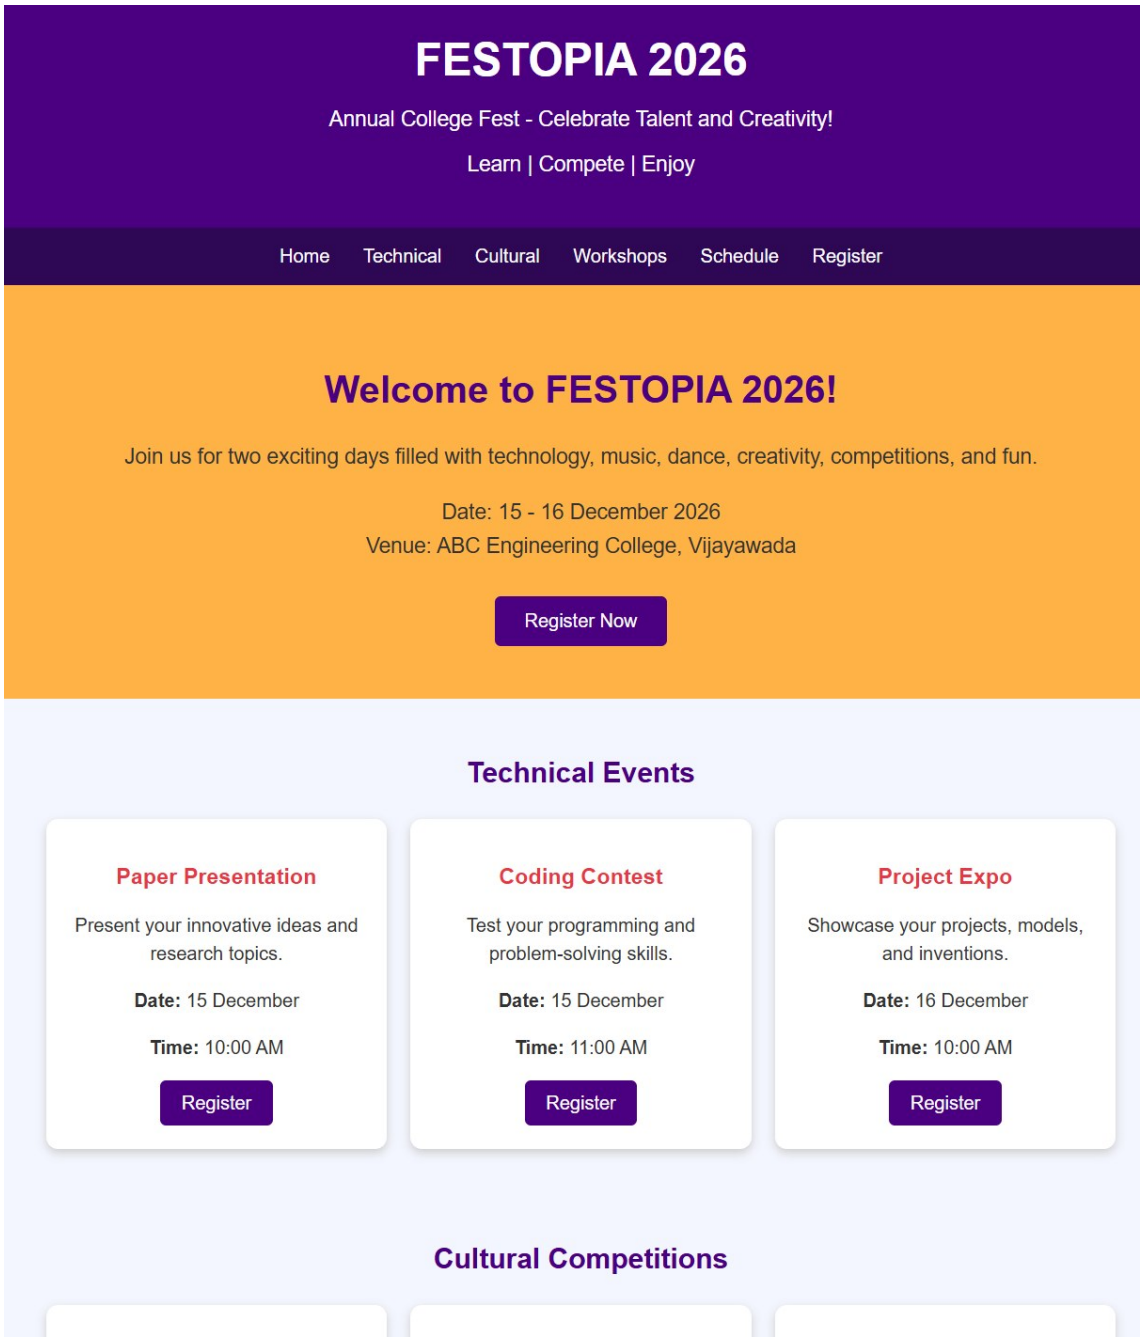

Key Features of the Website

- **Header and navigation bar:** Fest name and tagline "Learn | Compete | Enjoy" with links to Home, Technical, Cultural, Workshops, Schedule and Register.
- **Welcome banner:** Fest dates, venue and a Register Now button.
- **Technical Events:** Paper Presentation, Coding Contest and Project Expo.
- **Cultural Competitions:** Dance Competition, Singing Competition and Photography.
- **Workshops:** Artificial Intelligence, Web Development and Cyber Security. Each event card shows its description, date, time and a Register button.
- **Fest Schedule table:** Date, time, event and venue for the two days, from Inauguration to Prize Distribution.
- **Event Coordinators:** Faculty, technical, cultural and workshop coordinators.
- **Registration form:** Name, email, phone, college, event category, event, year of study, additional details and a rules agreement checkbox.
- **Rules and Guidelines** and a **footer** with contact details.

Technologies Used

HTML5 (headings, sections, tables, forms with text, select, textarea and checkbox inputs) and CSS3 (cards, table styling, colour theme and layout).

Case Study 16: Travel Agency Website

Overview

Travel agencies need an attractive online presence to showcase destinations, holiday packages and offers, and to collect enquiries from customers. This case study covers a website for **Dream Travels**, a travel agency based in Vijayawada, Andhra Pradesh, with the tagline "Explore the World, Create Beautiful Memories!". The site helps visitors explore places, compare packages and send a travel enquiry.

Objective

To create an attractive, easy-to-navigate travel agency website that presents popular destinations, holiday packages with prices, special offers and a sample itinerary, and provides a travel inquiry form for customers.

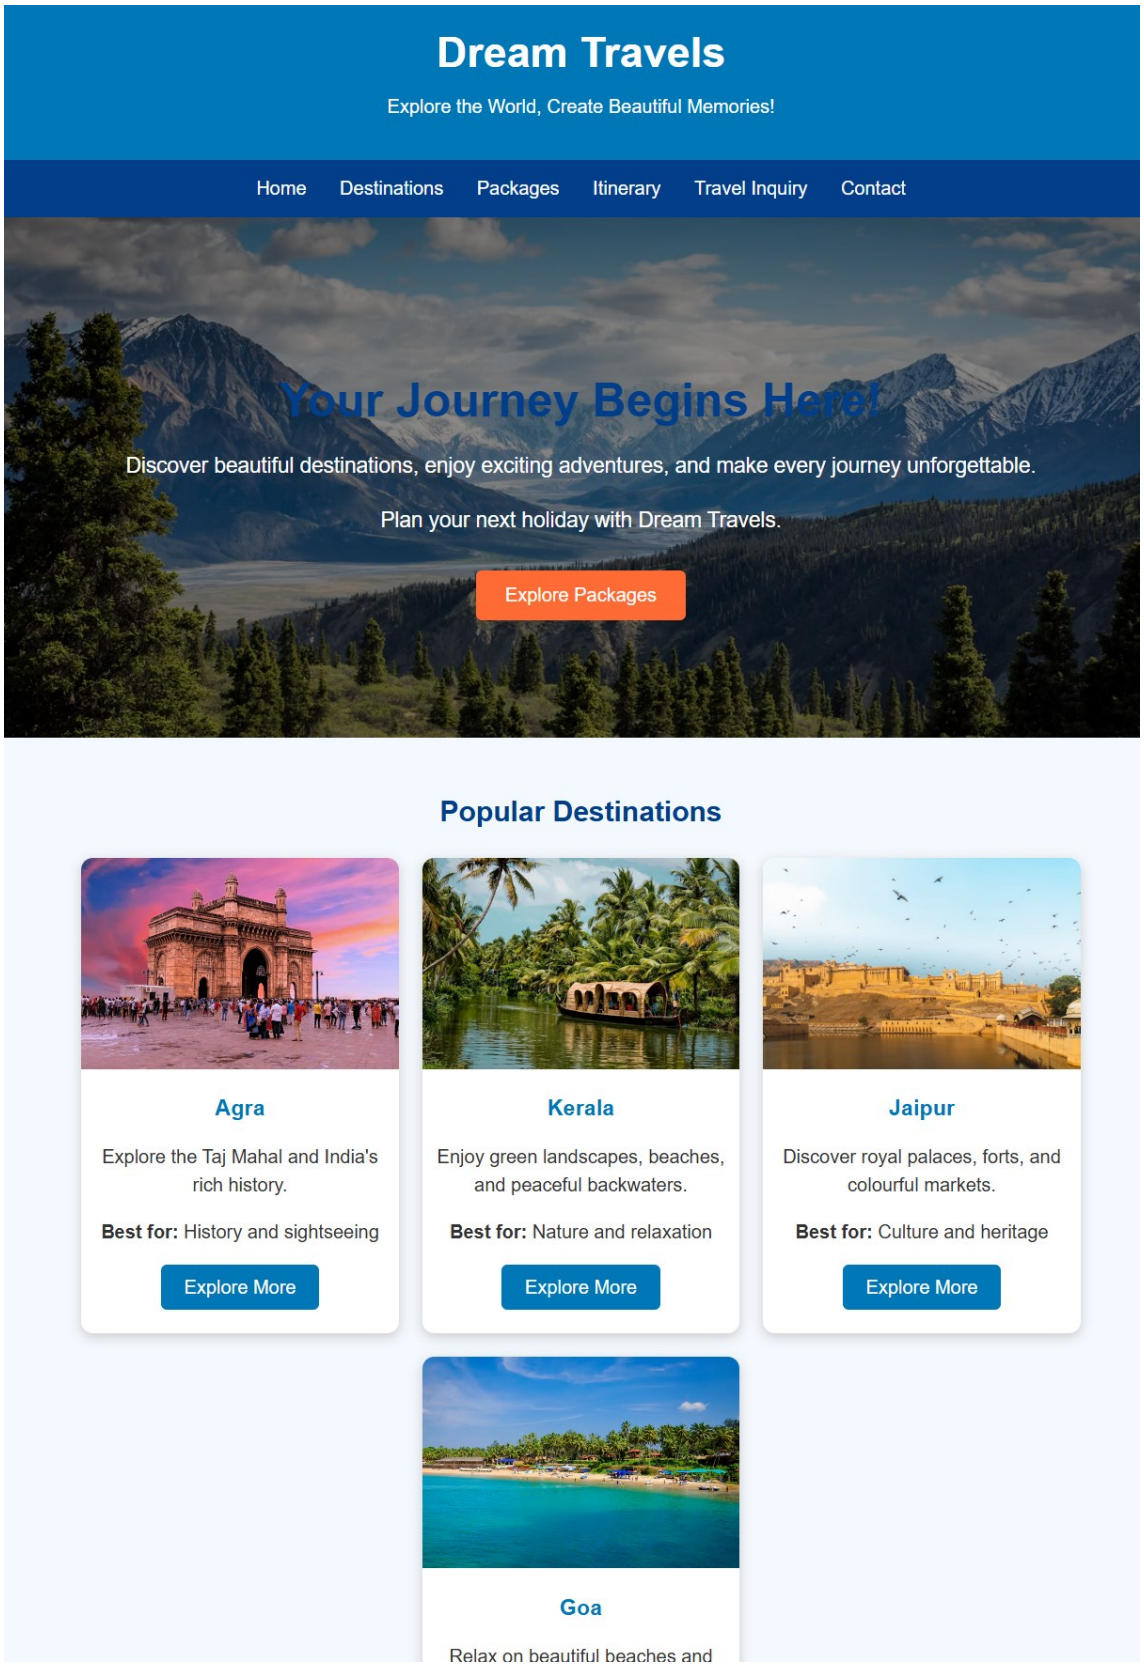

Key Features of the Website

- **Header and navigation bar:** Links to Home, Destinations, Packages, Itinerary, Travel Inquiry and Contact.
- **Hero banner:** Scenic background image with the message "Your Journey Begins Here!" and an Explore Packages button.
- **Popular Destinations:** Agra, Kerala, Jaipur and Goa, each with an image, description, best-for tag and Explore More button.
- **Holiday Packages:** Kerala Holiday (4 Days / 3 Nights, Rs. 8,999), Goa Beach Trip (3 Days / 2 Nights, Rs. 6,999) and Royal Jaipur Tour (5 Days / 4 Nights, Rs. 11,999) with Book Package buttons.
- **Special Travel Offers:** 10% discount on the first holiday package.
- **Kerala Trip Itinerary:** A four-day plan covering Kochi, Munnar, Alleppey backwaters and departure.
- **Travel Inquiry Form:** Name, email, phone, destination, package, number of travellers, preferred date and additional requirements.
- **Footer:** Agency name, email, phone, address and copyright.

Technologies Used

HTML5 for structure and forms; CSS3 for the hero banner, card layouts, buttons, colours and responsive design.
